TOP 4: Matters arising

a. Document on Clinical Legal Medicine

The work of the subcommission (Chairman: P. Franklin) is very much acknowledged by the president. A broad and detailed discussion about the opportuneness to now include more subspecialities in the syllabus with respect to our goal to get recognition of our discipline on the European level comes to the conclusion that: a stringent definition of the Legal Medicine is strategically better for our efforts to obtain recognition and it is decided that the existent syllabus stays the official and strategic document. However, the propositions made by the Commission on Clinical Legal Medicine will be further discussed to finally be integrated in an up-coming revised syllabus. The commission will
